ACCIDENT PREVENTION AND SAFETY POLICY

As required by law, and in the interest of public health and the safety and welfare of students, all students, instructors, and visitors must, while attending school classes in industrial art or vocational shops or laboratories in which:

- caustic or explosive chemicals, hot liquids or solids, hot molten metals, or explosives are used, or
- welding of any type, repair or servicing of vehicles, heat treatment or tempering of metals, or the milling, sawing, stamping or cutting of solid materials, or any similar dangerous process is taught,

wear an industrial quality eye protective device, approved by the department of public health, if exposure to the processes or materials involved may be a source of danger to the eyes. In designated areas, students may be required to wear hairnets if their hair touches or extends lower than their shirt collar.
