## CURRICULUM DEVELOPMENT AND ADOPTION

### **Curriculum Development**

Constant adaptation and development of the curriculum is necessary if the District is to meet the needs of the students in its schools. To be successful, curriculum development must be a collaborative enterprise involving staff and administrators utilizing their professional expertise, and gathering input from parents and community.

The Committee expects its faculty and administration to regularly evaluate the education program and to recommend modifications of practice and changes in curriculum content as well as the addition or deletion of courses to the instructional program.

### **Curriculum Adoption**

The School Committee will rely on its professional staff to design and implement instructional programs and courses of study that will forward the educational goals of the school system.

The Superintendent will have authority to approve new programs and courses of study after they have been thoroughly studied and found to support educational goals. The Committee itself will consider, and officially adopt, new programs and courses when they constitute an extensive alteration in instructional content or approach.

The Committee wishes to be informed of all new courses and substantive revisions in curriculum. It will receive reports on changes under consideration. Its acceptance of these reports, including a listing of the high school program of studies, will constitute its adoption of the curriculum for official purposes.
